

### Disaster Notification

O.C.G.A. § 48-2-100, which is effective on July 1, 2014, provides that an out-of-state business whose presence is solely that of conducting operations within this state for purposes of performing work or services on infrastructure related to a declared state of disaster or emergency during the disaster or emergency period shall not be considered to have established a level of presence that would require that business to register, file, and remit certain state taxes or that would require that business to be subject to any licensing or registration requirements in this state. The exemptions that relate to income tax include registration for a withholding tax number, filing and payment of employer income tax withholding, filing and payment of net worth tax, and filing and payment of state income tax, including the filing required for a combined or consolidated group of which the out-of-state business may be a part. For the apportionment of income pursuant to Chapter 7 of Title 48, the performance by an out-of-state business of any work in accordance with this Code section shall not increase the amount of income apportioned to this state. Please see O.C.G.A. § 48-2-100 for definitions and additional information.

O.C.G.A. § 48-2-100 does require that the following information be provided to the Department of Revenue (DOR). This form must be provided within 60 days after the end of the declared disaster or emergency period.
